

I. BASIC COURSE INFORMATION

A. Course Description (as stated in the bulletin, including necessary pre-requisite courses, credit hours)

- Three hours credit.
- A review of the fundamentals of composition:
 - mechanics, including grammar and style,
 - diction, and
 - development of paragraphs and the essay;
 - extensive theme writing in exposition and argument,
 - punctuation,
 - sentence structure;
 - including a unit on logic.

B. Intended Audience: Students who have satisfied writing requirements.

C. Instructor

Name: William T. Dowden
Office Location: TBD
Office Hours: TBD TTH
Phone: 936-425-0723
E-mail Address: wdowden@angelina.edu

II. INTENDED STUDENT OUTCOMES

A. Core Competencies (Basic Intellectual Competencies)

1. **Reading:**

- Reading at the college level means the ability to analyze and interpret a variety of printed materials books, articles, and documents.

A core curriculum should offer students the opportunity to master both general methods of

- analyzing printed materials and specific methods for analyzing the subject matter of individual disciplines.

2. **Writing:**

Competency in writing is the ability to produce clear, correct, and coherent prose adapted to purpose, occasion, and audience.

Although correct grammar, spelling, and punctuation are each a sine qua non in any composition, they do not automatically ensure that the composition itself makes sense, or that the writer has much, if anything, to say.

Students need to be familiar with the writing process including how to discover a topic and how to develop and organize it, how to phrase it effectively for their audience.

These abilities can be acquired only through practice and reflection.

3. Speaking:

- Competence in speaking is the ability to communicate orally in clear, coherent, and persuasive language appropriate to purpose, occasion, and audience.
- Developing this competency includes acquiring poise and developing control of the language through experience in making presentations to small groups, to large groups, and through the media.

4. Listening: Listening at the college level means the ability to analyze and interpret various forms of spoken communication.**5. Critical Thinking:**

- Critical thinking embraces methods for applying both qualitative and quantitative skills analytically and creatively to subject matter in order to evaluate arguments and to construct alternative strategies.
- Problem solving is one of the applications of critical thinking, used to address an identified task.

6. Computer Literacy:

- Computer literacy at the college level means the ability to use computer-based technology in communicating, solving problems, and acquiring information.
- Core-educated students should have an understanding of the limits, problems, and possibilities associated with the use of technology, and should have the tools necessary to evaluate and learn new technologies as they become available. (The Texas Higher Education Coordinating Board. Report of Subcommittee on Core Curriculum. March 1, 1989).

B. Exemplary Objectives

(Found in the Texas Higher Education Coordinating Board Document.

- **Titled:** *CORE CURRICULUM: ASSUMPTIONS AND DEFINING CHARACTERISTICS*
 - **Dated:** April 1998)
1. To understand and demonstrate writing and speaking processes through invention, organization, drafting, revision, editing and presentation.
 2. To understand the importance of specifying audience and purpose and to select appropriate communication choices.
 3. To understand and appropriately apply modes of expression i.e., descriptive, expository, narrative, scientific and self-expressive, in written, visual, and oral communication.
 4. To participate effectively in groups with emphasis on listening, critical and reflective thinking, and responding.
 5. To understand and apply basic principles of critical thinking, problem solving, and technical proficiency in the development of exposition and argument.
 6. To develop the ability to research and write a documented paper and/or to give an oral presentation.

C. Course Objectives for all sections

1. To help the student to understand his or her creative processes for greater expressiveness and apply modes of expression in writing assignments.
2. To write concrete, creative essays that thoroughly develop a central idea in an organized manner.
3. To understand the importance of specifying audience and purpose.
4. To apply the principles of writing as process: writing conceived as a connected and interactive process that includes pre-writing and invention, writing, revision, editing, and proofreading.
5. To master mechanics and grammar concepts necessary for clear expression.
6. To learn the principles of critical reading and to apply those principles to his or her own and to others' writing.

7. To be able to make logical choices and to apply such logic to writing.
8. To understand and apply basic principles of critical thinking in the development of exposition and argument.
9. To understand computers and their application to our daily lives.
10. To develop the ability to research and write a documented paper.
11. To practice oral communication skills.

D. Course Objectives as determined by the instructor

III. ASSESSMENT MEASURES OF STUDENT LEARNING OUTCOMES:

A. Assessments for the Core Intellectual Competencies

1. **Reading:** Competency in reading is assessed as students respond to classmates' writing in the classroom or on-line as well as through exams covering the textbook material and discussion of and responses to material presented in the textbook and on handouts provided by the instructor.
2. **Writing:** Competency in writing is assessed through the development of writing projects which meet the evaluation criteria and which are mechanically correct. Also students' writing assignments that fulfill the evaluation criteria will demonstrate proficiency in reading, writing, critical thinking, and computer literacy.
3. **Speaking:** Competency in speaking is assessed based on students' demonstrated ability to respond appropriately to different communicative situations as well as to a variety of addressed purposes and audiences. Students will interact with teacher and with classmates in the classroom and/or also via email and discussion board.
4. **Listening:** Competency in listening is assessed based on students' demonstrated ability to respond appropriately to different communicative situations as well as to a variety of addressed purposes and audiences. Students will interact with teacher and with classmates in the classroom and/or also via email and discussion board.

5. **Critical Thinking:** Competency in critical thinking is made as students respond appropriately to assignments, to instructions, and in interactions with instructor and classmates.

6. **Computer Literacy:** Competency in computer literacy will be made based on students' ability to submit properly prepared, researched documents, on students' ability to access online writing and grammar resources as well as library database, and on students' ability to communicate via email and/or discussion board.

B. Assessments for the Exemplary Objectives

1. The ability to understand and demonstrate writing and speaking processes through invention, organization, drafting, revision, editing, and presentation is assessed through preparation and presentation of writing projects throughout the semester.
2. The ability to understand the importance of specifying audience and purpose and the ability to select appropriate communication choices is assessed through students' attention to the rhetorical situation of each portion of each writing assignment.
3. The ability to understand and appropriately apply modes of expression is assessed through activities on correct usage of language and rhetorical devices and in the submission of appropriate writing projects throughout the semester.
4. The ability to participate effectively in groups is assessed by student response to in-class or on-line group assignments.
5. The ability to understand and apply basic principles of critical thinking, problem solving, and technical proficiency is assessed through student writing projects.
6. The ability to research and write a documented paper is assessed by the requirement of at least one documented essay during the semester.

C. Assessments for Course Objectives for all sections

1. Student understanding of creative processes for greater expressiveness and application of modes of expression in writing assignments will be assessed by effective use approach to a variety of writing assignment topics.
2. Student ability to write concrete, creative essays that thoroughly develop a central idea in an organized manner will be assessed by applying a standard grading criteria.
3. Student ability to understand the importance of specifying audience and purpose is assessed by presentation of effective writing projects which clearly address the chosen audience for the writer's chosen purpose.
4. Student ability to apply the principles of writing as process: writing conceived as a connected and interactive process that includes pre-writing and invention, writing, revision, editing, and proofreading is assessed through students' writing multiple drafts and/or revisions using peer and/or instructor review.
5. Student ability to master mechanics and grammar concepts necessary for clear expression is assessed through grammar diagnostic, grammar midterm, and grammar final exams, as well as through the appropriate use of grammar and mechanics in the multiple writing assignments and contexts.
6. Student ability to learn the principles of critical reading and to apply those principles to his or her own and to others' writing is assessed through peer response, as well as through successful completion of writing assignments.
7. Student ability to make logical choices and to apply such logic to writing is assessed through writing that appeals to the chosen audience in the desired or designated manner and assessed through the student's using clear reasoning while avoiding logical fallacies in a required persuasive essay and while interacting with fellow students and the teacher during discussions in the classroom or on-line.
8. Student ability to understand and apply basic principles of critical thinking in the development of exposition and argument is assessed through the writing assignments.
9. Student ability to understand computers and their application to our daily lives is assessed as students complete assignments using *Blackboard*.

10. Student ability to develop the ability to research and write a documented paper is assessed through successful inclusion of secondary sources in at least one documented essay.
11. Student ability to practice oral communication skills is assessed through in-classroom discussions/presentations, in-person or telephone conferences with instructor, and for Internet courses through optional orientation sessions, in-person or telephone conferences with instructor, or through question and answer sessions at test administrations.

D. Assessments for the Course Objectives as determined by the instructor

See Dowden's Ten Commandments.

INSTRUCTIONAL PROCEDURES:

A. Methodologies common to all sections

Methodologies that may be utilized in presenting course content include in class or online lecture notes, paper and pencil or online grammar exercises or research exercises which give immediate feedback, in person or email workshops for student writings in progress, audio-visual presentations for view in class or outside of class, online discussions (synchronous or asynchronous), student presentations to groups or to instructor only, and guest participants.

B. Methodologies determined by the instructor

1. Each assignment or assessment includes a due date. The "due date" assumes availability of the assignment to the student; the assignment has been posted in Blackboard and is available.
2. Available assignments have been released to the student audience so that the students may begin working on that assignment - immediately.
3. The due date is not the date to begin working on the assignment; students must not expect to be able to complete an assignment such as an essay, or a research paper, in a matter of a few hours. More time for reflection, proofreading, and student editing is required to permit effective composition. Take more time.

Course Work:

The work required in the course supports the learning objectives. This support is accomplished by five main sections of the course as follows:

I. Mechanics: Grammar, Documentation and MLA Style.

Each student must pass two assessments:

One Assessment on Basic Grammar Fundamentals,

- One Assessment on the Modern Language Association style, and
- the Major Grammar Assessment.

The weighted average of the Mechanics section is 10% of the student's final course grade.

II. Composition and Rhetoric.

Each student will complete assignments which develop the student's ability to compose coherent, organized essays using one of several rhetorical organizational techniques.

The weighted average of these essays will constitute 30% of the student's final course grade. The grade of the lowest essay will be dropped if the student has completed at least five essays.

III. Research Techniques.

During this section, students will complete two or more research exercises and a research paper. The formatting style of the Modern Language Association will be described and required for appropriate documentation of sources to avoid plagiarism. The combined weight of the research paper and the associated research exercises will be 30% of the student's final course grade.

IV. Final Examination.

The course concludes with a final paper and a final quiz on Mechanics. The weight of the final examination is 20% of the student's course grade.

Attendance and Participation:

Students are expected to attend regularly and to participate in class activities when attending. For a class that meets three times a week, the semester consists of 48 contact hours over 16 weeks (3 times 16).

These contact hours involve:

- instruction,
- student participation in class discussions and
- student performance of in-class exercises and other assignments.

Students who are not present miss the learning opportunities offered in the classroom environment; as a result, such students often do not maintain satisfactory performance through the semester.

Perfect (100%) attendance is neither required nor expected; however, students who are absent for undisclosed reasons will be noted. Students who accumulate five absences before the mid-term mark without having discussed these absences in advance with the instructor will be dropped. The expected rate of attendance is 90%. (Ten percent of 48 hours is 4.8; therefore students who miss 5 or more absences have not met the expected rate of attendance.) When a student has been absent three or more days even before the mid-term, the student will be counseled.

Class Participation:

1. Participation is worth 10% of the student's final course grade. Half of this participation credit is earned when students complete on-line course evaluations in MyRecords after mid-semester break. Students who accumulate more than five absences before mid-semester break will be dropped from the course. Students who accumulate more than five absences any time after mid-semester break will lose their participation credit if their absences exceed five after the last day to drop with a **W** grade has passed.
2. The college classroom is a place for adult men and women to come together with the common purpose of improving their intellectual and academic skills. All students deserve a classroom environment that is free of interruptions or distractions that impede learning. Because active participation in class discussions is essential, it is important that all students are fully prepared for class each day. Any student who arrives unprepared, sleeps in class, or is disruptive will be asked to leave class and will be counted absent.

V. COURSE REQUIREMENTS AND POLICIES:

A. Required Textbooks, Materials, and Equipment

- Richard Bullock, Maureen Daly Goggin, Francine Weinberg
- *The Norton Field guide to Writing*. 3rd ed.
- New York: W.W. Norton and Company, 2013.

The Writer's Workbench computer program.

B. Assignments (Appropriate due dates, schedules, deadlines)

C. Course Policies (This course conforms to the policies of Angelina College as stated in the *Angelina College Handbook*.)

Academic Assistance

Academic Assistance - If you have a disability (as cited in Section 504 of the Rehabilitation Act of 1973 or Title II of the Americans with Disabilities Act of 1990) that may affect your participation in this class, you should see Maria Lopez or Steve Hudman in room 200 of the Student Center. At a postsecondary institution, you must self-identify as a person with a disability; Ms. Lopez and Mr. Hudman will assist you with the necessary information to do so. To report any complaints of discrimination related to disability, you should contact Mr. Steve Hudman, Dean of Student Affairs, in Room 101 of the Student Center. You may also contact Dean Hudman by phone at (936) 633-5292 or by email shudman@angelina.edu.

○

Attendance:

From the *Angelina College Policy Manual*:

- A true evaluation of the teaching-learning situation involves a correlation between attendance and progress.
- It is the responsibility of the student to attend all classes, and a record of attendance will be kept for all classes by the instructor.
- It is the responsibility of the student to withdraw officially in the College District admissions and registrar's office from a class the student no longer desires to attend.
- College District instructional standards allow the instructor to set the educational objectives and requirements for each course. The student who does not meet these requirements because of excessive absences may be dropped by the instructor on a notice to the College District admissions office using either a first or second drop slip. The position of the instructor on submitting a non-attendance drop should be stated in the course syllabus.
- Excessive absences are defined as three or more consecutive absences or four or more cumulative absences from regularly scheduled class periods. The summer terms call for two or more consecutive, or three or more cumulative absences. A three-hour night class counts as two class periods.
- Students will not be dropped and will be allowed to make up work for absences because of
 - College District authorized and sponsored activities, and
 - religious holy days.
 - It is the student's responsibility to arrange for make-up work with the instructor and to complete it within a reasonable time.

-
- In accordance with the Texas Education Code, each student is allowed to be absent from a class for the observance of a religious holy day.
 - *A religious holy day* means a holy day observed by a religion whose places of worship are exempt from property taxation under Section 11.20, Tax Code.
 - The student must notify the instructor of each class of the anticipated absence not late than the 15th calendar day after the first day of the semester.
 - A student who is excused under this section must complete all assignments or missed examinations at the direction of the instructor.

 - The form for notification of absences is in the office of admissions and will include the following:
 - Student name and identification number;
 - Name of religious institution and tax code number;
 - Name and date of holy day(s);
 - Classes to be missed;
 - Schedule for delivery of form by student to instructor(s);
 - Conditions and deadlines for completing missed assignments;
 - Instructor's signature and date; and
 - Student's signature and date.

 - A student dropped because of excessive absences will be notified by mail by the College District admissions office and will be directed to obtain a readmit form and seek the approval of the instructor for admission. All students in developmental education must obtain approval of the instructor and the vice president and the dean of instruction.

 - A student who fails to contact the College District admissions office within one week of the date the notice was mailed will be dropped permanently from class.

 - All make-up work is at the discretion of the instructor.

 - Attendance in developmental courses is guided by the Texas Success Initiative rules and regulations and additional steps are required.

Additional Policies Established by the Individual Instructor -**VI. COURSE CONTENT:****A. Required Content/ Topics** (common to all sections)

Mechanics Emphasis: Mechanics and grammar study is an ongoing one that is an integral part of the writing process. Each student will be tested at the beginning of semester and will be given specific assigned studies to correct any weaknesses. Each student will be given a major test at the end of the semester to determine the student's mastery of mechanics and grammar. Further, all essays will be evaluated closely for correct usage, spelling and correct use of sentence parts. Approximately 20-25% of all class time will be given to drills on concepts. The *Bedford Handbook* with corresponding Internet resources will be the primary source for this continuing study. There will be no separate unit for the study of mechanics and grammar, but it will be a part of the writing unit. Essay Writing: College level essay writing is chiefly expository writing with some occasional creative writings, if desired. The process approach to teaching writing will be used to promote unified writing and thinking processes. The teacher will initiate brainstorming or other heuristics to encourage free and fluent expression--then introduce different rhetorical modes for developing and organizing paragraphs and full essays. Each class time or homework assignment should require some writing. The instructor need not "grade" or even see every composition, but there must be some immediate feedback for every writing that the student does. This feedback might be in the form of peer evaluation or response, a letter written to a pen pal in another class whereby there will be a written response from the receiving student, or perhaps a class response to a writing read aloud in class. Argumentation: Argumentation includes but is not limited to induction and deduction, logical thinking, fallacies in argument, emotional appeals. Argumentative writing may be taught throughout the semester or in a two to three week unit. At least one grade should be from an argumentative essay (20-25%).

B. Additional Content (as required by the individual Instructor)**VII. EVALUATION AND GRADING:**

A. Grading Criteria (percentages, extra credit, etc.) Evaluation: 4 or 5 major grades 75 to 80% At least 75% of the course grade must come from writing:

1. At least 60% of this writing grade must be from essay writing: example/illustration, comparison/contrast, definition, classification/division, process, cause-effect, argumentation
2. The other 15 to 20% writing grade might come from journal writing, essay tests, correspondence (letters, editorials), creative writings, critiques 20 to 25% A separate grade for mechanics and grammar should be given to emphasize the importance of the mastery of acceptable usage and to prepare students for future proficiency tests.

This grade should be derived from daily exercises, quizzes on spelling, diction, punctuation and other mechanics and from at least one major objective test.

B. Determination of Grade (assignment of letter grades) A (90-100) Excellent B (80-89) Good C (70-79) Average D (60-69) Minimum passing F (50 or below) Failure

Standard Grading Policy for the English Department for all Essays Assigned A—above average. Good organization, exceptional content, No more than one major Error.

A+ = 98, A = 95, A- = 92, A - - = 90 B—above average. Good organization, exceptional content, and only one or two major errors.

B+ = 88, B = 85, B - = 82, B - - = 80 C—average. Organization, clear content, no more than 3 major errors.

C+ = 78, C = 75, C - = 72, C - - = 70 D—below average. Either lacks content and/or organization or has many major errors.

More than 5 major errors drops the grade to an F. D+ = 68, D = 65, D - = 62, D - - = 60 F—failing. Shows little or no effort. Contains 6 OR MORE major errors. F = 50.

0—no grade. Did not turn in work, plagiarized an essay, or did not write on the assigned topic.

Please Note: In the case of a plagiarized essay or research paper, a student may be dismissed from this course with an F.

Major errors include the following: Sentence Structure Errors: fused, comma splice, fragment and Agreement Errors: verb agreement errors and pronoun case agreement

VIII. SYLLABUS MODIFICATION:

The instructor may modify the provisions of the syllabus to meet individual class needs by informing the class in advance as to the changes being made.
